

PG Technology announces the completion of the move to new purpose built facility.

New Facility Fully Functional.

As part of major investment program and PG Technology's ongoing goal in becoming the best supplier of precision machined parts in the UK with on time delivery to the right quality, we wish to inform all its customers / suppliers that we have now relocated to our new purpose built freehold facility from which we accommodate

**Contract Machining in the following disciplines :-
CNC Turning, Grinding, Mill/Turn, Milling and EDM.**

In addition we offer design capability with 2D and 3D solid modelling.

The new facility encompasses the latest cutting edge technology and with Multi Axis state of the art equipment in all disciplines operating 24/6.
